WORK EXPERIENCE

Girlscript Summer of Code (GSSoC)   **May 2023 – Aug 2023**
Open Source Contributor   *Remote*

- **Web Game Contributions:** Enhanced JavaScript skills by adding vanilla JS games to GameZone and other repositories.
- **Git Collaboration:** Gained version control and collaboration experience in team projects using Git.
- **Community Involvement:** Developed teamwork and communication skills through active participation in GSSoC discussions and assisting contributors.

EDUCATION

University Institute of Engineering & Technology (UIET) Panjab University   **2022-Present**
B.E., Information Technology (8.25 CGPA)   *Chandigarh*

PROJECTS

Global Countries Data Dashboard (PowerBI)   **GitHub**
- **Description:** Designed and created an inventive PowerBI dashboard, leveraging Pandas and a Kaggle Dataset, to visually present extensive country data. This initiative enhanced data accessibility and facilitated efficient analysis for informed decision-making.
- **Achievements:** Ensured a seamless user experience.
- **Skills Utilized:** Proficient in Flutter, Firebase/Firestore integration, and user interface design.

LetMeCook - Recipe Recommendation Website (Python, Flask, Edamam API)   **GitHub**
- **Description:** Developed a recipe recommendation website using Python, Flask, JavaScript, HTML, CSS, and the Edamam API. This platform offers personalized recipe suggestions based on user-input ingredients and readily available options.
- **Achievements:** Achieved an efficient recipe recommendation system, ensuring a seamless user experience.
- **Skills Utilized:** Demonstrated expertise in API integration, Flask, Python 3, and user interface design.

Reddit Clone App (Flutter, Firebase)   **GitHub**
- **Description:** Developed a fully functional Reddit clone using Flutter and Firebase. Implemented various login types, a karma system, profile viewing, and different view levels based on the login type, enhancing user engagement.
- **Achievements:** Ensured a seamless user experience, demonstrated expertise in Firebase integration.
- **Skills Utilized:** Utilized Flutter, integrated Firebase/Firestore, and executed user interface design.

SKILLS

C++ | C | Data Structures and Algorithms | Data Visualisation | Data Analysis | Jupyter Notebooks | PowerBI | Android Development | Mobile Development | Python | Javascript | Dart | Flutter | TensorFlow | Flask | Bootstrap | React.js | Pandas | Numpy | Seaborn | D3.js | GCP | SQL | MongoDB | Node.js | Vite.js
